### THE DETAILS

In addition to hands-on organizing, packages include the following services, as needed: donation drop-off, trash removal (to curb), emailed list of suggested organizing products, and a follow-up call a week or two after the project is completed. Session time may also include space planning for storage furniture/systems, shopping for/delivering/assembling/installing storage containers or products, consignment drop-off, etc..

How much can be accomplished per session varies widely for each client depending on the size of the space, the number of belongings in the space, the desired goal for the space, how easily the client can make sorting decisions, and how much in-between session homework can be accomplished. Unlike other work done on your home, organizing is about decision-making, which can take various amounts of time for each person and situation.

For service packages, a \$250 deposit is due upon scheduling the work with the remaining balance due at the completion of the project. All packages are non-refundable. Long-term projects (with sessions scheduled beyond 60 days) may incur monthly installment payments. For pay-as-you-go services, time is billed in 15-minute increments after minimum time is met and the first session payment is due upon scheduling with subsequent session payments due at the end of each session.

All clients will be sent an invoice via email with complete charges itemized and copies of all receipts (if applicable). Payments may be made online with a credit card, though cash or check are also accepted in person if you prefer. The cost of organizing products to be purchased for the project are not included and are the responsibility of the client. If the organizer purchases items for the client, a 3.5% credit card processing fee will be charged.

More Breathing Room is pleased to provide you with professional organizing services. We offer referrals to related professional services such as cleaners, junk removal, furniture pickup, document/photo scanning, movers, etc.
